**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 18-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Dawson '384.

Dawson discloses a retaining wall block (see Figs. 9a,b) comprising left (16,18), right (16,18), front (20) and rear (22) body portions, interior space (30), at least one alignment element (46) extending vertically from a top surface of said block, said alignment element adapted to be removably received within said interior space of said block (see col. 7 line 25+) and at least one groove (42, see Figs. 9a,9b).

***Response to Arguments***

3. Applicant's arguments filed 2/7/08 have been fully considered but they are not persuasive. Applicant argues that Dawson fails to disclose a "stabilizing element". Applicant should note that claims 18-19 do not positively claim "a stabilizing element" and as such Dawson is not required to include a stabilizing element to anticipate claims 18 and 19. Applicant argues that Dawson fails to disclose at least one groove adapted to receive a stabilizing element. The examiner disagrees. Dawson member

(42) is **adapted** to receive a stabilizing element. All of the claimed structure called for in applicant's claims 18 and 19 are taught by Dawson.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
